

Washer Disinfectors
CONCEPT LINE

MADE IN ITALY EXCELLENCE

Smeg Instruments offers technologically advanced products to the Medical, dental and Healthcare world. It provides fully customizable solutions, flexible and efficient services, safe and certifiable results in terms of washing and thermal disinfection efficacy. These results are achieved thanks to Smeg Research and Development department working in synergy with After-Sales Service and its Customers to meet the market requirements.

ENVIRONMENTAL SUSTAINABILITY

Smeg washer disinfectors are equipped with specially designed features to facilitate and simplify disinfection. By using **ECO cycles** or creating customized cycles, It is possible to **save time, water, energy and detergents**.

The **Mixed water cooling drain system**, guarantees cooling of the **water to a maximum of 65°C**, safeguarding the drainage for perfect compliance with installation requirements.

SECURITY OF RESULTS

Disinfection quality

Smeg offers state-of-the-art washer disinfectors made of high-quality materials. This is combined with a careful study of specific cleaning and thermal disinfection programs, using professional detergents formulated to achieve the goal: patient safety, infection control, productivity and environmental respect.

Flexibility

Thanks to a wide range of trolleys and accessories, carefully designed and created to meet customer needs, the machines can treat many different devices as surgical instruments, containers, mininvasive instruments, anesthesia sets, endoscopy, optics and dental instruments, OP shoes, lactarium and others.

Traceability

Traceability is a fundamental part in disinfection processes. All Smeg machines record and keep track of all operations performed: cycle, settings, alarms. This data can be accessed via display, **USB connection**, printer, LAN, Wi-Fi, Bluetooth.

Safety

Quality

Saving

INNOVATIVE SOLUTIONS

Smeg Instruments presents its new range of undercounter washer disinfectors featuring **fully upgraded technology**.

These high-performance machines satisfy user requirements by enabling an high number of customizable washing programs to suit the various needs.

Innovative and flexible, by choosing the correct trolley and detergent, the washer disinfectors can be easily adapted to treat different medical devices and loads in many hospital departments.

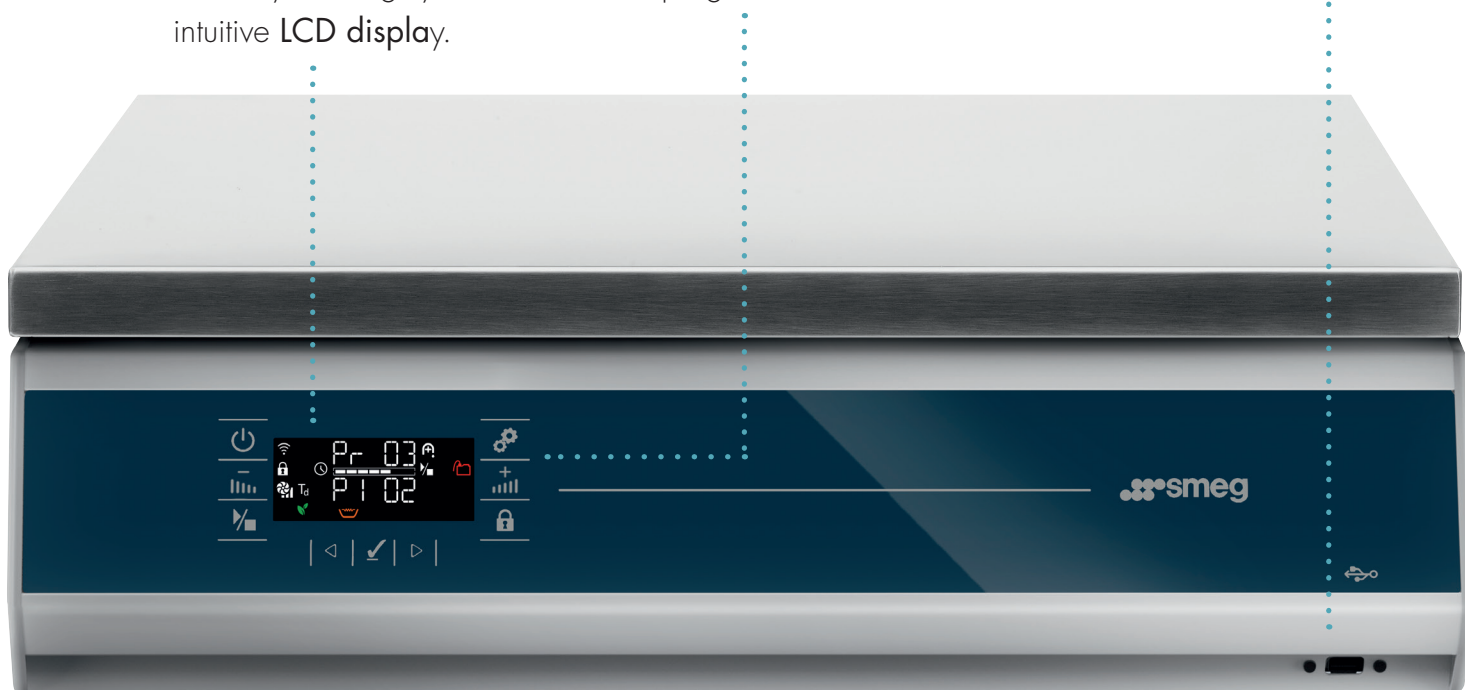

► SIMPLE TO USE

Each function is controlled by user-friendly and highly intuitive **LCD display**.

► NEW PROGRAMS

wide range of default and custom programmes.

► **USB** port and wireless connection option for quick and easy data downloads.

WASHER DISINFECTOR CONCEPT LINE

WD1260

Capability to work with two to four washing levels (up to 8 CSKDIN basket).

Washing chamber dimensions: 570x525x490mm (150 liters)

Machine designed to perform washing, chemical disinfection, Thermal Disinfection up to 95°C

WD4260

Washer disinfector with **active drying with H14 HEPA Filter**.

Capability to work with two to four washing levels (up to 8 CSKDIN basket).

Washing chamber dimensions: 570x525x490mm (150 liters)

Machine designed to perform washing, chemical disinfection, Thermal Disinfection up to 95°C

WD4290

90cm washer disinfector with **incorporated detergent cabinet** (up to 5 liters) and with **active drying with H14 HEPA filter**.

Capability to work with two to four washing levels (up to 8 CSKDIN basket).

Washing chamber dimensions: 570x525x490mm (150 liters)

Machine designed to perform washing, chemical disinfection, Thermal Disinfection up to 95°C

ACCESSORIES

Smeg offers a full range of accessories to answer the needs of different washing areas. All these products can be purchased separately, as for example:

CSK4BMIC

Washing solution for surgical instruments and minimally invasive surgery accessories (CSK4BMIC trolley with 1 KITMIC basket to put inside mini-invasive surgery accessories and n. 3 CSKDIN baskets for surgical instruments).
